

The Many Ways Safe Fleet Improves Safety On Your Bus

Safety, Performance
& Efficiency Technology.

FLEET VIDEO SYSTEMS

Never miss a thing that happens on or around your bus. Reliably capture and store detailed, clear and instantly insightful data for accurate event response.

Live Video Streaming

Monitor real-time, onboard activity from anywhere

School Bus Parent Information

Streamline school and parent communications

THE CONNECTED BUS

The Connected Bus is **CLOUD CONNECTED** through Wi-Fi or Cellular, providing back-office insight for improved student safety and route operations.

Evidence Management Systems

Manage your digital evidence on a single platform

Automatic Video Upload

No more pulling media files

School Bus Surveillance Systems

Improve student safety and risk mitigation from every angle

Safety Cameras

Get clear views to resolve incidents quickly

Recorders

Capture reliable, defensible evidence

Stop Arm Violation Enforcement

Capture high-definition evidence of illegal passbys for automated ticketing

Predictive Stop Arm®

Proactively protect students from stop arm violations with audible alerts

High-Visibility Backlit Stop Arm

Increase awareness the bus has stopped and students are loading/unloading

Driver Alert Device

Caution traffic when bus is about to stop or loading students

ILLEGAL PASSING SUITE

The most comprehensive approach to keeping kids safe outside the bus. These systems work together to:

- 1) Improve Bus Visibility
- 2) Proactively keep students from danger and
- 3) Reinforce best driver behaviors.

BASIC AND ADDITIONAL SAFETY FEATURES

Safe Fleet is likely already on-board your bus with industry-leading safety features that contribute to making the school bus the safest mode of student transportation.

Crossing Arms

Ensure students stay in the driver's line of sight

Roof Hatches

High-functioning emergency escape and ventilation hatches

Roof Mounted Strobe Lights

Warn motorists to slow down/stop

Danger Zone Around Vehicle Monitoring System

School Bus Routing Operations & Planning

Optimize routes and student assignments, track vehicles and students in real-time, manage planned versus actual and capture and publish route info with existing GPS data

Student Ridership Tracking

Know where your students are

Live GPS Tracking

Improve safety with real-time bus location information

Driver Navigation & Tablet

Deliver turn-by-turn directions and student ridership lists

WIRELESS CONNECTIVITY

Smart Reach All-in-One Router

Gain on-board Wireless Connectivity to Connect your bus

Smart Reach® Hotspot™

Turn your school bus into a mobile classroom
