SAFE SF FLEET

Driving Safety Forward™

Safe Fleet Stop Arm Violation Enforcement System™ (SAVES)

AI-Enhanced technology to modify driver behavior in the Danger Zone.

STOP

Tackle the *persistent problem* of *stop arm violations head-on* for student, parent and community peace-of-mind.

Actual Stop Arm Violation Captured by SAVES

Reduce stop arm violations in your community and improve student safety in the Danger Zone.

Comprehensive Protection

Create a multi-layered safety zone around school buses to safeguard students.

Get Accurate & Clear Evidence

Capture undeniable proof including high-quality images and videos of violations to improve citation approval and court admissability.
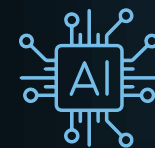

Proven in the Field

SAVES core AI engine is deployed and trusted by some of the largest and most exacting Law Enforcement and Transit agencies in the nation.

Capture evidence of illegal school bus passings for automatic ticketing and better driver awareness of posted school bus laws. Drive real change in the Danger Zone with the only proven stop arm violation enforcement system that provides

>98%* detection accuracy

and full vehicle and surrounding context data for greater citation success rates.

Uses AI for improved detail capture and deep and complex algorithms that fully compute actual scenarios against posted rules.

Checks the event was accurate, the stop arm was deployed and the vehicle passed in a timeframe that is enforceable through a court of law.

SAVES is part of the Safe Fleet Illegal Passing Suite, a multi-faceted approach to safety – protecting students through enhanced driver notifications, proactive student alerts and law enforcement.

Consists of 3–4 cameras to show a contextual view of what is taking place, the violation, details of the violation and proof that the stop arm was extended and children were present.

Features flexibility on camera installation and placement and consists of 2–3 separately located cameras, providing a level of redundancy that maintains vision at all times.

>98% accuracy rates in real-world conditions and a 2,000 vehicle sample size. Results may vary based on environmental conditions.

How it Works:

Powered by AI technology, the Safe Fleet Stop Arm Violation Enforcement System:

*Designed to be **fair and equitable, protecting all students regardless** of their bus route's location or the volume of offenses.*

4 Sends **evidence packages** to the Safe Fleet cloud for review and law enforcement ticketing

3 Identifies vehicles in **violation and captures** their license plates

CH574K

2 **Activates automatically** when the stop arm is deployed

1 Uses **proven, high resolution** HD video, **artificial intelligence** & edge computation

Transparent Pricing and Flexible Solutions with **SAVES**

With SAVES, You'll Never Overpay

Rather than charging you based on steady or increasing numbers of violations, our pricing model accounts for a natural decrease in violations as your community becomes more aware of the laws and the camera systems being used.

Fair Contracts Designed for Realistic Outcomes

Our contracts reflect reasonable violation targets from year one through year five, without tying you down to operational minimums.

Freedom to Choose Your Fleet

We give you the flexibility to install on any bus in your fleet, ensuring you have complete control over your safety systems.

Why Safe Fleet:

Our goal is simple and uncompromising: SAVE LIVES and DETER VIOLATIONS. Period.

We offer a full end-to-end solution that, not only captures exemplary evidence, but greatly improves to how we review evidence and determine what criteria needs to be met before a ticket is processed.

The **Safe Fleet SAVES** processing system is fully **SaaS** managed, data is accessible online via desktop or tablet application. It's web-based, accessed from anywhere, secure with Single Sign-on and allows you to see all your evidence in one place.
